TECHNO STRIP LTD. The Metal Cleaners

- PAINT STRIPPING ■ DERUSTING ■ DEGREASING
- REMOVE SURFACE COATINGS & CLEAN PARTS READY FOR REUSE
- SPECIALISTS IN PAINT SHOP FIXTURES, HOOKS AND RACKS CLEANING

Established in 1992, Techno Strip Ltd. is providing specialized metal cleaning services to a wide variety of industrial and commercial companies and individual customers.

In addition to paint stripping, TSL is removing zinc and other surface coatings or fouling agents, derust, degrease and clean various sizes and shapes of parts which were made out of steel, castings, aluminum, galvanized steel, wrought iron, copper, die cast zinc and other metals and alloys.

In our immersion tanks and burn-off ovens we are equipped to handle items up to 10 ton in weight and sizes ranging from small nuts and bolts to large castings and steel assemblies up to 18 feet in length.

Every request for service is carefully analyzed and a suitable process is selected or a new process developed to meet customer requirements in terms of quality and price.

Taking an innovative approach we are offering a variety of thermal, hot and cold chemical and mechanical stripping and cleaning processes.

Equipment and installations in our 25,000 square foot modern plant facility are operating in compliance with the Ministry of Environment regulations. A waste water treatment system assures that effluent meets regional By-Law standard. Much of our treated water is recycled.

Our target is to achieve customer satisfaction by applying flexible technologies for optimum results and by providing reliable and high quality service at reasonable price.

Please call us for further information at (905) 459-6196 or visit our web site at www.technostrip.com
